Explanations	

Our company is pleased to share a significant development with the public in line with our vision of contributing to Turkey's infrastructure investments.

Kontrolmatik has been awarded first place in the tender for the "Construction of Additional Units for the Wastewater Treatment Plant (3)", conducted by the İstanbul Su ve Kanalizasyon İdaresi Genel Müdürlüğü (İSKİ) on April 11, 2025, by submitting the most advantageous bid amounting to TRY 2,500,000,000.00.

This project aims to increase Istanbul's wastewater treatment capacity in response to the city's growing population and urbanization dynamics, to protect environmental health, and to implement sustainable infrastructure solutions.

At Kontrolmatik, with our engineering expertise in water technologies, technology-driven approach, and strong project management capabilities, we aim to successfully complete this strategically important project. As we continue to play an active role in infrastructure projects that promote environmental sustainability and public benefit, we remain committed to creating long-term value for our investors.

Turkish and English translations of this statement are available, and in case of any conflict between the Turkish and English versions of this statement, the Turkish version will prevail.

Respectfully announced to the public.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
