Explanations	

Plan-S Subsidiary Connecta Received Turkey's First LEO Satellite Operator License:

Connecta İletişim Hizmetleri A.Ş., a subsidiary of Plan-S Uydu ve Uzay Teknolojileri A.Ş., has been granted authorization for Uydu Haberleşme Hizmetleri (UHH) by the Bilgi Teknolojileri ve İletişim Kurumu (BTK), effective as of 17.09.2025.

Through this authorization, Connecta will commence providing IoT communication services in Türkiye via the Connecta IoT Network satellite constellation, which has been entirely developed with its own know-how and resources using LEO (Low Earth Orbit) satellites.

Currently consisting of 12 satellites, the constellation is planned to expand to 200 satellites in the near future, enabling global coverage.

This license:

- Represents the first authorization granted to an LEO satellite operator in Türkiye.
- Strengthens and acts as a catalyst for Connecta's strategic position in delivering IoT communication services in global markets.

This material event disclosure has been prepared in both Turkish and English. In case of any discrepancy between the two versions, the Turkish text shall prevail.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
