Explanations	

The Environmental Impact Assessment (EIA) Report submitted to the Ministry of Environment, Urbanization and Climate Change for the Çorlu Wind Power Plant (Çorlu WPP) and Energy Storage Facility projects, planned to be implemented in the Muratlı and Süleymanpaşa districts of Tekirdağ Province by our subsidiary, Progresiva Enerji Yatırımları Ticaret A.Ş., has been evaluated by the Review and Evaluation Commission, and a "Positive EIA" decision has been made.

The project will have a capacity of 250MW wind energy and 1,000MWh energy storage. This makes it the largest grid-scale energy storage project in Turkey. It includes a wind power plant with an annual electricity generation capacity of approximately 875 million kWh, along with the country's first energy storage facility with GWh capacity.

As part of the project, all necessary permits are being obtained in accordance with the legal regulations, and preparations for construction are ongoing. Project Progress Reports containing updates on the investment process will be submitted to the relevant Ministry every two months starting from the date of the Positive EIA Decision.

We present this to the public's information.

Turkish and English translations of this statement are available, and in case of any conflict between the Turkish and English versions of this statement, the Turkish version will prevail.

We proclaim that our above disclosure is in conformity with the principles set down in "Material Events Communiqué" of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we're personally liable for the disclosures.
